CALIFORNIA.

There is a land of gold along
The wild Pacific shore,
To which unnumber'd thousands throng,
To share its glittering store.
From many a clime beyond the sea—
From many a country far,
Thither they flock incessantly,
Lured by a golden star.

From Britain's coast and vine-clad France,
And some from "far Cathay,"
From both America's advance
Their ships upon the way:
From north and south, and east and west,
Around Cape Horn, and where
Old Ocean on his sapphire breast,
Doth isles like emeralds wear.

How many come to shore alive,
How many die before—
How many mid the mines survive
Their labor for the ore:
How many fortune there will find,
How many find a grave,
Is known but to His single mind,
Who can destroy or save.

'Tis sad to think that many a bark,
Well rigged, and tall, and strong—
That when both sea and sky were dark,
Danced to the tempest's song.
And lightly, on her billowy way,
Impressed a whitened path—
May never reach the long sought bay;
Wrecked by the Storm-King's wrath.

'Tis sad to think that many a crew,
Whose breasts to hope were given,
When first they hailed the Ocean blue
Beneath a smiling Heaven,
May, in some storm's fierce strength and gloom,
Be whelmed beneath the wave,
And only have, for shroud and tomb,
Sea weed and coral cave.

Alas! how many a loving eye,
By loved ones left at home,
Will fill with tears, when winds are high,
And lash the waves to foam,
And look, how oft! and look in vain,
Where madden'd billows roar,
For one that ne'er will come again
Back to his native shore.

Alas! how many a loving heart
Which ached with agony
When its beloved did depart,
On earth ne'er eased shall be.
Tho' sick through hope deferred, it live,
Despair will come at last;
Then death the sole relief can give
By which its pangs are past.

Oh! he hath made a sad mistake,
Who deems that happiness
Possession of mere gold can make,
Tho' millions we possess;
For there's a sadness of the heart,
A sickness of the soul,
Which earthly wealth, and human art
Can cure not, nor control.

Oh! far more precious is the love
Of one pure, gentle breast,
Whose aspirations are above
Pride, and self-interest,
Than all the riches ever won
From earth's vexed mines, in vain
For which, men toil, beneath the sun,
And mind and body strain.

And California! tho' thy gold,
Much as it is, were more;
And tho' a gem, of price untold,
Each rock upon thy shore;
Their wedded values could not pay
For loss of friends and home:
Treasures, by many cast away,
Who here, for dross, have come.

DAILY PACIFIC NEWS.

J. WINCHESTER.....EDITOR.

Monday, May 27, 1850.

Mr H. Chafee is the authorized collector of this establishment, assisted by Mr. B. E. Holland.

To Builders, &c.

Proposals will be received at this office until ten o'clock to-morrow, for the erection of a *fire-proof* building in the rear of the present Pacific News Office, about 12 by 28 feet. Specifications will be ready at ten o'clock this day

Also, for the digging of a well on the premises. Apply to the proprietors, as above.

Fire.

About 10 o'clock last night the kitchen building in the rear of the Bryant House was discovered to be on fire. The alarm was given by the acting Mayor, Alderman Bartol, and Alderman Selover, who, we understand, were the first to discover the flame as well as the first on the ground to subdue them. Little damage was done beyond the destruction of the kitchen, and the inevitable loss consequent upon the rapid removal of valuables by the proprietors.

It is the abiding impression of the above named gentlemen, that it was the work of an incendiary, from the fact that the kitchen has not been in use for some time, and the point where the fire originated was such as to render it almost a matter of impossibility to have caught by accident. Nothing but the timely discovery of the incipient flames saved the city from a calamity equal to that experienced three weeks since.

It is to be hoped that no other argument will be necessary to induce the City Fathers to take up and carry through the ordinance introduced by Alderman Maynard at their last meeting, for the organization of the Fire Department, and the construction of Artesian wells, and reservoirs in various parts of the city. It should have been done at the very first meeting of the Council: for every day's delay is rendering the city liable to the loss of millions. Another proposition brought forward by the same gentleman should receive immediate attention,—requiring all persons owning houses or tents to have water buckets on hand.

Now that we are on this subject, we make bold to suggest one other thing,—the thorough organization of an efficient *night watch*. It will cost something to be sure, but fires are somewhat expensive too. Such a watch might have prevented the ruin which stares us in the face daily, and from which our young city, elastic as she is, cannot recover for months and months. If too, there are those in our midst bent upon the fiendish purpose of firing the city for the gratification of private malice, or the occasion of indiscriminate plunder, the very fact that vigilant eyes are upon the watch, whose glance may consign them to the felon's destiny, should an outraged community wait the action of the law, will operate as a restraining power, when nothing else will.

The subject is worthy the serious consideration of the Council, and doubtless will receive that attention which its importance demands.

THE EMPIRE.—This brilliant saloon was opened on Saturday evening last, for the reception of the public. It is about one hundred feet long by thirty wide, and the ceiling is nearly fifteen feet high, beautifully painted in fresco. The walls are adorned with paintings and engravings of the highest excellence and taste; and, indeed, the whole fitting up of the room is in a style not inferior to the most gorgeous of like places in the older cities of the Atlantic States. The enterprise of the owners is worthy of the highest commendation; for only three weeks have elapsed, to a day, from the time their former edifice burnt down, until they were ready to receive their friends in this princely saloon, upon the same site they lately occupied.

At the invitation of the gentlemanly proprietor, we called and partook of a sparkling glass of the best Heidsick, with them, and their kind remembrances followed us with a box of cigars as *is* cigars. We wish them showers of prosperity; and hope they may shortly see the time when patronage will be sufficient to sustain such pleasant places of public resort, without the iniquitous gambling table always in sight to mar the scene.

SARAH SANDS.—In our notice of the safety of the ship Sarah Sands, Saturday, we gave the name of the gentleman who came into San Francisco with Mr. Rice, as Robert S. Brown. It should have been Robert L. Brown. Mr. Brown is from Alabama, and was an officer in Capt. Walker's spy company in Mexico. Mr. Lighthall was unable to travel further than Monterey, from hardships endured on the mountains, and Mr. Thompson would remain at Monterey until the collier should touch in there to take him back to the Sarah Sands, with letters to the captain.

FIRST PAGE.—On the first page will be found a poetical article on "California," a theme for the inspirations of the muses. We also here notice that even Lady Emeline Stuart Wortley, while residing at Panama, has been discoursing poetry in the Panama papers upon the same subject.

Nuisances.

An Ordinance was offered by Alderman Sharron for the consideration of the Council, at its last meeting, on the subject of nuisances, which is calculated to have a decided influence upon our city, and, as we hope and believe, for the better.

It is well known that there exists in various parts of the city limits, and in close proximity to owners and householders, branches of business not only disgusting to the senses, but actually prejudicial to the growth of the town and the health of its inhabitants. We allude more particularly to the existence of slaughter-houses within our corporate limits. The noxious and fœtid odor arising from these establishments and wafted to the olfactories of all persons within the neighborhood, has caused various petitions to be gotten up at different times, and presented to the city authorities, praying for their removal and prohibition. Nothing was done, however The ordinances already promulgated on the subject of nuisances do not reach this particular case, and hence the necessity of this move by Ald. Sharron.

The whole scope of the ordinance is defined by the fact that it contemplates and establishes the doctrines of the "common law" on the subject, as the law of this city, making the Recorder the officer before whom the infringers upon the law are to be tried.

It is to be presumed that all trades and occupations under this rule will be considered lawful and legitimately to be prosecuted except such as are detrimental to the health of the city. And these certainly ought not to look for authorization and protection, when life, so infinitely valuable to mere dollars and cents is at stake.

Foreign Miners.

The reports from a portion of the southern mines indicate a feeling on the part of some of the miners affected by the tax bill, not only of dissatisfaction, but of resistance to the officers sent among them as collectors of the State revenue. Such conduct is folly, and worse. It is bringing them in conflict with a power that has all necessary strength to back the legal demands of its properly constituted officers in the lawful discharge of the duties imposed upon them by the Legislature of the State. It can result only in present disaster to themselves, without a prospect of any corresponding benefit in the future.

The protection and kind feeling which has for some time been steadily increasing in its extension to all foreigners in the mining region who have shown themselves well disposed, will be withdrawn. They must become the prey, to a greater or less extent, of that class of our own citizens in the *placeres*, who are regardless and reckless of all proper self restraint when the slightest opportunity presents them a chance to expend their ill nature without much prospect of being held to a strict account.

Much the best plan for all such persons as feel disposed to resist the payment of the monthly tax levied upon foreign miners, is to leave the country quietly. California, when she is disposed to allow all such to remain and secure a fair share of her golden treasures, by the payment of a very small per centage, will not miss the retirement of them at all from her shores; for more of our own blood and language—our neighbors, friends and brothers at home, are on the road by tens of thousands to take their places.

ANOTHER OUTRAGE.—From the Sacramento Transcript of Saturday last, we extract the following, concerning a desperate outrage in that city: "A Chilian was betting at Monte, and a dispute arose between him and a man by the name of Wm. Burdett, about some paltry sum of money at issue. After a word or two, Burdett drew a pistol upon the Chilian, who fled with Burdett after him. Of course the crowd gave way before a desperate man, with a loaded pistol in his hand. The Chilian, meanwhile ran for refuge to the bar, behind which he endeavored to screen himself; whereupon, Burdett deliberately leaning over the bar, aimed the pistol and drew the trigger. The pistol, however, merely snapped. Bardett cocked it again, fired, and the ball took effect in the fleshy part of the thigh.

This is one of the most high-handed outrages that our city has witnessed for some time. After a while the man was arrested. If the facts of the case are as they were stated to us, we trust that a prompt example will be made of this case."

FOR TRINITY RIVER AND PORT TRINIDAD.—The public will perceive by reference to our advertising columns, that the splendid fast sailer, *Sierra Nevada*, Capt. Edwards, is again up for the above ports. We can cordially recommend this opportunity to all who are intending to seek their fortunes in the "Trinity region," as a better vessel or more gentlemanly commander cannot be found in our waters.

AN ACT

Infamous Outrage.

At the City Hotel, on Saturday evening last, a gambler having some collision with another person about the game, drew a "colt," and inflicted upon the latter several severe wounds in the head, greatly endangering his life.

Just after this occurrence took place, Mr. F. H. Southworth and another gentleman, were passing, and the former expressed a casual remark, reflecting upon gambling and its consequences. This was overheard by one of the fraternity, who furiously assaulted, and threw bottles and other missiles at him, some of which took effect, but happily without any serious injury. Mr. Southworth is one of our most respectable citizens, and holds a responsible office under the city government.

The audacity of many of this class known as the "sporting" fraternity, calls for speedy restriction on the part of the constituted authorities. If there are no laws yet framed to reach them, it is high time that public sentiment was embodied to effect that object. Our charter gives the City Council considerable authority in regard to these things; and we hope that at the next meeting of the Legislature, laws will be enacted to banish this blighting curse from the whole land. In other States of the Union, where a few years since this iniquity stalked shamelessly abroad, it has been entirely suppressed, and they enforce the highest penalties against all black-leg pursuits. We hope that California will not be in the rear of other virtuous communities which have banished this plague-spot from among them.

CRANBERRIES.—As we believe this, to most people, very desirable fruit, is not yet reckoned among the productions of California, it may be a matter of no little interest to our readers to be advised where to obtain these beautiful berries.

While sitting at our table on Saturday evening, pondering upon the "lights and shadows" of editorial life, our worthy book-keeper came up with a large and mysterious parcel in his hand—which, being carefully unfolded, was found to consist of an immense *cranberry tart*, fresh from the baker's. A note, accompanying, informed us that Messrs Aldersey & co, Kearny st, two doors from California st, had received a large invoice of this fruit, which they will open to-day. *We* are of a sweet disposition, and therefore not fond of *sour* things, whether cranberries or old maids; but our assistants affirm that the tart is *bueno*. If Aldersay & co. are as prompt and ready in all their business arrangements, as the cranberries *look* tempting to the eye, they are bound to make a pile.

PILLS AND POETRY.—A gifted one is said to have uttered "Throw physic to the dogs!" and we suppose that is the reason why good wholesome boluses were called "villanous compounds." We hasten to correct this crude notion, and assure our readers that Parnassus never endorsed the idea. We are convinced that the temple of the Nine was a mammoth pill factory, and that Helicon ran nothing but Sands' Sarsaparilla. Any one who reads friend Richmond's advertisement this morning, and does not come to the same conclusion, has no music in his soul. He has shown that a good poet and a good stock of goods are adjunct to each other; and we can say for him that his modesty has prevented the display of half his wares. In addition to what he recommends for the cure of human ills in the internal way, his supply of toilet articles and perfumery would even tempt the Muses themselves, or at least the belles among them, and the books say there were several. We well know, of our own knowledge, that he has some of the finest preserved fruit in the market, for we tried a jar of apricots that were as temptingly delicious as the moment they fell from the stem.

THE BULL FIGHT.—Another one of these disgraceful exhibitions took place on last Saturday evening, to a full house. The poor bulls were half starved and were as tired as tame oxen. The matadores are the most cowardly, imbecile specimens of a most cowardly nation, and disgust was expressed by every American present. Only one bull was killed, the others would not get up a bad temper, notwithstanding all the refinements of Mexican cruelty. We understand the City Council have an ordinance under consideration to put an end to these disgraceful exhibitions.

We have learned that the carcases of the animals killed in these bull fights, after sometimes the lapse of a whole day, are dressed as beef, and put up for sale in some butcher shops in the city.

THE WATERS ABOVE.—By news from Sacramento yesterday, it is reported that the river is quite full at Sacramento City—being on a level with the highest ground, and were it not for the levee, would likely overflow the streets. Feather river was said to be falling rapidly, and it was thought the main river was also slowly subsiding.

DISTURBANCE AT CLARK'S POINT.—There was some disturbance among the settlers upon the government reserve last evening, in that part of the city. No damage was done, but the belligerents made such demonstrations as required the presence of the Police, for a short time.

ADDRESS OF THE DEMOCRATIC MEMBERS OF THE LEGISLATURE.—It is but three or four days since this document came to our hands, it having been detained from us by the illness of the gentleman who was to have placed it in our hands.

AN ACT

To the Public.

Messrs. J. S. Robb, W. Bartlett and W. G. Marcy having obtruded their private and personal grievances upon the public through the columns of the "*Journal of Commerce*," a paper in their control, and in their complaints having been so maliciously personal upon myself, I must ask for a hearing before the same disinterested tribunal, although it is quite probable that the good public do not care a straw about either side of the issue. I owe a defence of myself, however; against their miserable aspersions, to many kind personal friends in California and elsewhere, and find in that duty my principal excuse for noticing those persons at all.

During the sitting of the Convention at Monterey last fall, John S. Robb, a zealous and "nothing else" *Whig*, and W. G. Marcy formed an association to procure materials and establish a newspaper at San Jose, the then selected Capital of the State. It was to be the central *organ* of the ascendant *Democracy* of a Democratic State,—Mr. ROBB to be its principal editor. Funds were to be raised by contribution for the purchase of the materials, and Mr. Robb dispatched to New York: On his way I arranged with him to aid in the enterprise, and at the proper time came up to San Jose to prosecute it in company with Mr. Marcy. The Legislature was on the eve of meeting. The *newspaper* project could not be engaged in till after the arrival of Robb with his presses, &c., so we turned our united attention to the obtaining the public printing. How to succeed in that, without having materials with which to execute the work, was a matter of embarrassment. We negotiated with Mr. Gilbert, of the *Alta*. When we supposed we had all things safely arranged, a competitor appeared, in the person of Mr Bartlett, backed by a personal interest in the Assembly. We disregarded this for a time, until, as the period approached for the printing question to be settled, we found that Mr. Gilbert's partners were averse to his arrangement to provide us temporarily with a press when we were driven into an arrangement with Bartlett,—he simply binding himself to "furnish all the presses, type, &c., *necessary*," until Robb's arrival, in consideration of which he was to have a fourth interest, with the right to withdraw his material and dispose of it to his own interest as soon as Robb's was in readiness for use.

It was intended that the printing should be obtained for "Marcy & Co., but when the election came on, such was the interpretation of the act by members, a *firm* could not be elected to that office with any more propriety than to Treasurer or Comptroller of State. Marcy was very anxious to secure the Clerkship of the Supreme Court,—of course, then, he could not ask to be public printer, too;—Bartlett did not intend to be at the Capital in person, all at;—Robb was yet absent, (and did not reach here for a month afterwards, while doubts were expressed by those who knew him best against his coming at all.)—my friends, therefore urged, in consideration of all these facts, with the additional conceded, that to my own management was attributed the success so far obtained,—that Marcy was indolent, even to imbecility, wholly ignorant of the business and incapable of learning,—that as I had done all that was done, and would have to do all that was to be done, my name should be voted for. It was done, and unanimously.

Bartlett failed from the beginning in the fulfilment of his condition of partnership,—instead of providing all that was "*necessary*," did not provide the half, as my experienced workmen will at any time testify,—Marcy and myself at various times representing to him the delays in the work and the losses his delaying was involving us in.

Robb, after a useless delay, reached this city, and was forthwith engaged with Bartlett, in violation of both their conditions of partnership, to form an interest *of their own here*,—retain all the large amount of materials belonging to Marcy and himself to the use of a separate concern—keep Marcy out of it, at that,—compel the public printing at the capital to progress as it best could, and they hold on to their half of the proceeds there, while they would pocket all here. Robb's zeal in the *organship* of the *democracy* had cooled in his seatrip, and his memory of contributions from friends to aid the enterprise had become oblivious. Happy faculties!

In time, the twain made a visit to San Jose. Marcy was absent. The visitors affected hostility to each other, as each one approached myself,—Robb, before citizens there distinguishing himself as a *gentleman* by the grossest vulgar assaults upon Marcy in his most sacred relations—an offence which would, in some communities, have forfeited his ears. From that moment I distrusted him,—he meditated treachery. Henceforth there was hostility between them. Robb remaining in his separate business here, holding on to all the printing materials and persisting in his interest there. Marcy twice came down to effect an arrangement,—took legal advice how to proceed, but lacked the energy to execute. Work accumulated on us beyond our means to perform—some we sent here to have done—some we were deprived of by a rescinding vote of the legislature, at a nett loss of $6,220, less the cost of labor, while twice that sum was lost to the firm by the legislature proceeding in business, *without ordering work printed*, as members will admit.

The laws of the State had been ordered to be printed in pamphlet form; a profitable and heavy work, requiring speedy execution and therefore plenty of material to do it with. Members were importunate for their copies, as the end of the session approached, but, after taxing all our energies there, we failed to meet their proper demands. Marcy was again dispatched here, for the third time, with a full understanding that he was to force Robb into a division; that for his failure to do any one act to secure his partnership, Robb was to be ousted from the firm; that Bartlett, for having been instrumental in our heavy losses, should be held responsible to Marcy and myself. What was my surprise, then, when Marcy returned, without effecting any thing for our mutual interest and the interest of the State, to find, on a visit of observation and discovery here, that, instead of attempting an arrangement for the benefit of the state printing firm, he had absolutely endeavored to force himself upon Robb and Bartlett for a third interest in *their* separate concern, offering to withhold all the material in controversy from the capital, retain it for their joint use here, and thus compel the state printing to drag on as usual. Mr. Marcy denies this charge. Bartlett and Robb, on two different occasions, affirmed it. I care not who has the side of truth—there was treachery on the one side or falsehood on the other.

I now saw that I had myself, my bondsmen and the state to look to; myself, that three such persons, despising each other, yet united in a sympathy of trickery, should not succeed in using me to their advantage at the expense of my loss;—my bondsmen, that for their confidence in my ability to perform, they should not be held delinquent;—the state, that, because by the act of parties with whom I was associated, the printing of the laws was retarded, public interests should not be sacrificed and justice suspended. The Governor had, time and again, as also the Secretary of State, advised me of the loud complaints that were daily coming in against the delay in printing; at one time significantly intimating that unless rapid progress was obtained he would *have the work done on his own account, and look to the legislature for indemnity*. I saw the stunt I was in and formed my resolve. Determined that the public interest should not suffer by the acts I had in contemplation, I related my difficulties to Gen. Winchester; told him I intended to resign as soon as I could find some one fully prepared to progress the work, who would be acceptable to the Executive, and advised him to make application for the vacancy. I did the same with Gov. Burnett; frankly related to him my exact condition and what I had concluded to do. While conceding to me most fully that I had been indefatigable, and to the fullest extent of my means, in performing my duties, he alluded to the numerous demands for the laws, read me one urgent complaint from a distant county, and said something must be done speedily, or he would not escape reproach. I *could* take but one course,—give him an opportunity to select some one who had the means to meet the public necessity. He asked who would be the proper person,—who could perform that in which I had been forced to fail? I knew Gen. Winchester *had the facilities needed in the work*, and the Governor, becoming assured of the fact, the day after my resignation, gave him the office.

That is the entire of the Governor's agency and action in the whole matter: the entire of Gen. Winchester's. The Secretary of State, who was included with those gentlemen by the philipic of the "Journal," being guilty, first of urging me to hold on to the office, and then simply advising me, that as my bond held *me* to the prompt and faithful performance of duties, if I vacated I must see that the public suffered no sacrifice by the act. If either of these gentlemen, in the remotest way, has justly won the pitiful epithets and inuendoes of that precious trio of vapid malignants, the public, who shall be the judge in this case, in making its examination, must borrow the bleared glasses of some one who unites all the virtues of the *liar*, the *knave* and the *fool*.

This is a plain statement of the leading facts. There are many of little importance which your crowded columns forbid me detailing. The many libels and misrepresentations of the "*Journal*," which stand in contrast with this statement, can pass, infamous and malicious, but harmless. So much for a matter which that self-defeated trio supposed would, by their wonderful blast, whistle me down the wind. What cares the public for it all? what now care you, General? what care I? The venom of such assailants strikes home only upon themselves. They have signally failed—failed in their tricks entire—failed in their miserable efforts to prejudice myself before the community—failed in their prosecution, for after wholesale swearing, they were kicked out of court, with the taint of moral perjury stamped upon two of them by the record of that tribunal

"Now mark how plain a tale will put you down."

H. H. RGBINSON.

APPLES.—A "rumor" has reached us that some *real* apples, of the Long Island varieties, have found their way around "the horn," and are secreted in some part of this city. If any of our friends are better "posted up" than ourselves, commercially speaking, we hope they will communicate to us the secret, where to find THAT, for the eating of which, paradise was lot. We should certainly fall into the same temptation as did the lovely Eve, after eighteen months deprivation of so great a luxury. Who cares for tropical fruits, when rich, juicy apples can be obtained? Not we.

SAN FRANCISCO HERALD.—Robert D. Foy, Esq., associated with Messrs. John Nugent and Edmund Randolph, have issued proposals to start a daily paper, with the foregoing title. It is to be a commercial sheet, neutral in politics. Mr. Nugent has a wide reputation as a correspondent of the New York Herald; and from the well known ability of the members of the firm, we feel assured their journal will be one highly deserving public favor.

ROBBERY—The Unity Hotel, on Pacific street, conducted by Mr. B. W. Jones, was broken into on the evening of Wednesday last, during the temporary absence of the proprietor, and robbed of about $3700 in gold coin, and a number of valuable articles, to the amount of about $300, all the property of Mr. Jones.

Our citizens cannot be too careful in guarding against such occurrences, as we have many rogues as well as honest men in town.

Mr. Jones offers $50 reward for his dressing case, also stolen.

THE INDIAN DISTURBANCES.—The Sacramento Transcript of Saturday, says: "Capt. C. C. Catlett, on his way up the river yesterday, from down below, stated while the steamer was detained at our landing, that a Lieutenant of Dragoons had just returned to Benicia, bringing reports of two engagements between the Indians and our troops. It appears that a company of Infantry, and another of dragoons, had left Sonoma and overtaken and fought the Indians at Clear Lake, and again on Russian River. Two of the troops were badly wounded, and from 180 to 300 Indians killed. We were not present when Capt. C. gave this information, and are unable to obtain further intelligence."

DIED,

At the State Marine Hospital, May 22d, of diarrhœa, LAWRENCE JACOBS, from Boston, aged 35 years. His many friends deeply deplore his loss as an estimable citizen and upright man.

"None knew him but to love him;
None named him but to praise."

RICHMOND IN THE FIELD AGAIN.

Rio, come, just turn the crank,
We will see what we can do.
Stop her! Do not be so frank;
'Twill break the *old machine* in two.

C. C. RICMOND & co. wholesale and retail Druggists—Principal store, Jackson st, below montgomery, Branch, at clark's point, have just received a fresh supply of drugs and medicines, which they offer at reduced prices.

Also, a large lot of Sand's sarsaparilla, and other patent medicines of the day. To the Doctors they would say—

Do you want to fill your vials,
Come! 'twill not cost you many rials.

The Merchant—

Do you want some pills,
To cure the miners of all their ills?

The Miner—

If we cannot sing of flowers and groves,
Of nightingales and turtle-doves,
We'll say, do come. Why will ye die,
So long as Richmond is so nigh;
On Jackson street, he's to be found,
The finest store in all the town.
They've just received by last express,
A fine assortment, and the best
Of *pills* and *potions*, to cure the pains
While you are winning all your gains.
The *fever* and *ague* dare not stop,
So long as you have got a drop
Of Wynkoop's tonic by your side,
Instead of your once-loving bride.
Have you a cough? If so, come buy
Ayer's Cherry Pectoral, just to try:
'Twill cure you, we know, tis certain—
Always right, like *Day & Martin*.
Mrs. Kidder, too, is on the track,
And says, beware! do not look back;
But come and buy her cordial here.
'Twill surely cure the *die a rear*.
Come, *Pipes*, of Pipesville, meet your doom;
Here, Mrs. Pipes can get the best perfume.
Our clerks are all polite, and ready
To wait on gentleman or lady.
They never look ugly, cross, and sigh
If the fair ones do not buy.
Come and try us, 'tis all we ask,
To show you is a pleasing task.
If we don't sell, no harm is done,
Nor have you offended any one. clv u

PLUMAS CITY.

THIS flourishing town needs no puffing, for there can scarcely be one having been in California one month who is ignorant of the important stand Plumas is to take among her sister townships. Being located so immediately in the midst of the rich mines of Bear river, Dry creek, Rough and Ready, Gold river, Yuba and Deer creek. The rich diggings of the Bear river, just discovered, are within fourteen miles. To all these mines the roads are remarkably level, being over prairie land. The finest red brick clay is there in abundance, and timber to last for ages. Is situated on high land and beyond the possibility of overflow. Ninety-nine of the hundred who cross the plains this year will pass by Truckee river, and pass directly through Johnson's Rancho and Plumas City, where the richest soil and finest gazing land in the world is found. There is every inducement for traders to visit this town for the reason above named, and trade has taken an active start there, and already, although but five weeks since the first building was erected, there now are some twenty large frame buildings finished or nearly so, and occupied for merchandising, hotel, &c., as also as many tent houses.

For the information of those just arriving in the country, the subscribers would state that Plumas City is situated on the east banks of the Feather river, about two and a half miles below Hock Farm, but on the opposite side, and seven miles above Bear river. All the steamers of light draught can run to this point the year round, and without doubt must prove the head of steam navigation through the summer and fall months. In the winter and spring, sail vessels drawing ten to twelve feet water, have no difficulty in navigating as high up the river as Plumas, when close along the banks in front of the town all winter could be found 16 to 22 feet of water. There are already over two hundred persons interested in this town, and increasing daily. Teams and horses are in readiness always to convey miners and their goods into the interior, at the lowest rates. The subscribers have erected their storehouses, and are storing miners trunks and chests for 50 cents per month.

The proprietors are not anxious to sell to speculators, but to actual settlers, who will find liberal inducement.

NOTICE—Trinidad City is situated on the left bank of the Sacramento, about 20 miles above Lawson's ranch, a short distance below the Red Bluffs, and by the new road, which leaves the Sacramento at Trinidad City, only 50 miles from the Trinity Diggings.

Steamboat navigation to the above point is now open, the Jack Hays having already made two successful trips with provisions, houses, lumber, &c, and as soon as well assorted stores are established, the whole supply for the Trinity mines will be derived from there.

At present, the nearest stores to Trinity Diggings are at Marysville, a distance of nearly 200 miles

The greater portion of the shares of this city having been disposed of, the different shareholders are hereby notified that the drawing of lots will take place in the town of Marysville, on Tuesday, the 4th of June next.

A few shares are still unsold, and may be had if applied for *immediately*.

MUNICIPAL LAWS.

City Ordinance

IN RELATION TO NUISANCES.

The People of the City of San Francisco do ordain as follows:

§1. All dirt, sawdust, soot, ashes, cinders, shavings, manure, waste water, or any animal or vegetable substance, rubbish or filth of any kind, in any house, cellar, yard, or other place, which the Mayor or City Marshal shall deem it necessary for the health of the city to be removed, shall be carried away therefrom by and at the expense of the owner or occupant of such house or other place where the same shall be found, and be removed to such place as he shall be directed, within twenty-four hours after notice in writing to that effect, given by the Mayor or City Marshal.

§2. The owner or occupant of any house or place wherein the articles mentioned in the first section of this ordinance, shall be found, and who shall have received the notice required in that section for the removal of the same, and shall fail, refuse or neglect to remove the same within the time prescribed by the notice, shall be brought before the Recorder, and fined not less than twenty dollars nor more than one hundred dollars.

§3. No person or persons, unless by leave of the Mayor and Common Council, shall throw or deposit, or cause to be thrown or deposited, in any street, court, square, lane, alley, or vacant lot, or into any pond, any dirt, ashes, soot, cinders, shavings, manure, waste water, or any animal or vegetable substance, rubbish, or filth of any kind.

Any person or persons, on conviction before the Recorder of violating the provisions of this section, shall be fined a sum not less than five dollars, nor more than fifty dollars.

§4. No person shall sell or offer for sale, or have in his possession, in any of the public or private markets, or in any other place, any unwholesome, stale or putrid meat, fish or fruit, or any other articles of provisions.

Any person, on conviction before the Recorder of violating the provisions of this section, shall be fined not less than five dollars for the first offence, and not less than twenty-five dollars for every subsequent one.

Passed, May 13, 1850.

TO PREVENT ENCROACHMENT ON THE STREETS.

The People of the City of San Francisco do ordain as follows:

§1. No person or persons shall erect, or cause to be erected, any fence, tent, or building adjoining any fence, tent, or building adjoining any street or public ground, without having first ascertained the bounds of the same by application to the Street Commissioner.

§2. No person or persons shall erect or cause to be erected, upon any lot, a tent, fence, wall or building, and encroach on the limits of the streets or public grounds, by means of said tent, wall, fence or building.

§3. It shall be the duty of the Street Commissioner, if he discovers that any person has violated the provisions of the second section of this ordinance, to notify him in writing to that effect, and if said individual neglects for the space of five days to remove said tent, fence, wall or building, then it shall be the duty of the Street Commissioner to inform the Marshal of the city of that fact, who shall arrest such person and carry him before the Recorder.

It shall be the duty of the Recorder, upon conviction of any person or persons of having violated the provisions of this ordinance, to impose upon him or them, a fine not less than five dollars nor more than fifty dollars for the first offence. The continuance in the streets or public grounds of the tent, fence, wall or building, for each and every day after the first conviction, shall be deemed a separate and distinct offence, and shall be punished by fine or imprisonment, or both, at the discretion of the Recorder.

City Ordinance.

TO PREVENT OBSTRUCTIONS, NUISANCES, &C., IN THE STREETS.

The People of the City of San Francisco, do ordain as follows:

§1. No person shall cause any obstruction or nuisance in the streets, lanes, alleys or sidewalks of this city, under the penalty of being fined at the discretion of the Recorder, in a sum not greater than twenty-five dollars for each offence.

§2. It shall be the duty of the Street Commissioner, whenever he finds any obstructions or nuisance in the streets, lanes, alleys or sidewalks of the city, to notify the offender, and if in a reasonable time after such notice, the same be not removed, such offender shall be fined in a sum not exceeding one hundred dollars, at the discretion of the Recorder, and each day's continuance after the first fine imposed, shall be considered a separate offence.

Should the Commissioner be unable to ascertain the offender, it shall be his duty to remove such obstruction or nuisance, and collect the expense thereof from the offender as soon as he can be ascertained. And where the obstruction so removed is of value sufficient, it may be sold at public auction, after two days public advertisement, and the proceeds or so much thereof as may be required for the purpose, shall be appropriated to pay the expenses of removal. Nevertheless, it shall be lawful for any person to occupy such portion of any street for building or other necessary purposes, as may be designated in a permit to be obtained from the Mayor of the city, in which permit, the Mayor may, in his discretion, require the premises so occupied to be lighted at night by the occupants.

AN ACT

FOR THE BETTER REGULATION OF THE MINES, AND THE GOVERNMENT OF FOREIGN MINERS.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

Sec. 1. No person who is not a native or naturalized citizen of the United States, or who may not have become a citizen under the treaty of Guadaloupe Hidalgo, (all native California Indians excepted,) shall be permitted to mine in any part of this State, without having first obtained a license so to do according to the provisions of this Act.

Sec. 2. The Governor shall appoint a Collector of licenses to foreign miners for each of the mining counties, and for the county of San Francisco, who, before entering upon the duties of his office, shall take the oath required by the Constitution, and shall give his bond to the State with at least two good and sufficient sureties, conditioned for the faithful performance of his official duties, which bond shall be approved by the Governor and filed in the office of the Secretary of State.

Sec. 3. Each Collector of licenses to foreign miners shall be commissioned by the Governor.

Sec. 4. It shall be the duty of the Comptroller to cause to be printed or engraved a sufficient number of licenses, which shall be numbered consecutively, and shall be in form following, to wit:

"Number , (Date.) A. B., a citizen of , age years, complexion , is hereby licensed to work in the mines of California for the period of thirty days."

The Comptroller shall countersign each of such licenses, and shall transfer them to the Treasurer, keeping an account of the number so transferred.

Sec 5. The Treasurer shall sign and deliver to each Collector of licenses to foreign miners so many of the licenses mentioned in the preceding section as he shall deem proper, and shall take his receipt for the same and charge him therewith. Such Collector and his sureties shall be liable upon his bond for the number so furnished him, either for their return or the amount for which they may be sold; and the moneys collected, as herein provided, shall be paid into the treasury as prescribed in this Act.

Sec. 6. Every person required by the first section of this Act to obtain a license to mine, shall apply to the Collector of licenses to foreign miners and take out a license to mine, for which he shall pay the sum of twenty dollars per month; and such foreigners may from time to time take out a new license, at the same rate per month, until the Governor shall issue his proclamation announcing the passage of a law by Congess, regulating the mines of precious metals in this State.

Sec 7. If any such foreigner or foreigners shall refuse or neglect to take out such license by the second Monday of May next, it shall be the duty of the Collector of licenses to foreign miners of the county in which such foreigner or foreigners shall be, to furnish his or their names to the Sheriff of the county, or to any Deputy Sheriff, whose duty it shall be to summon a *posse* of American citizens, and, if necessary, forcibly prevent him or them from continuing such mining operations.

Sec. 8. Should such foreigner or foreigners, after having been stopped by a Sheiff or Deputy Sheriff from mining in one place, seek a new location and continue such mining operations, it shall be deemed a misdemeanor, for which such offender or offenders shall be arrested as for a misdemeanor, and he or they shall be imprisoned for a term not exceeding three months, and fined not more than one thousand dollars.

Sec. 9 Any foreigner who may obtain a license in conformity with the provisions of this Act, shall be allowed to work the mines anywhere in this State, under the same regulations as citizens of the United States.

Sec. 10. It shall be the duty of each Collector of licenses to foreign miners to keep a full and complete register of the names and description of all foreigners taking out licenses, and a synopsis of all such licenses, to be returned to the Treasurer.

Sec. 11. Each license, when sold, shall be endorsed by the Collector selling or issuing the same, and shall be in no case transferable; and the Collector may retain out of the money received for each license, the sum of three dollars, which shall be the full amount of his compensation.

Sec. 12. Each Collector of licenses to foreign miners shall, once in every two months, and oftener, if called upon by the Treasurer, proceed to the seat of government, settle with the Treasurer, pay over to that officer all moneys collected from foreigners not before paid over, and account with him for the unsold licenses remaining in his hands.

Sec. 13. If any Collector shall neglect or refuse to perform his duty as herein provided, it shall be the duty of the Comptroller, upon receiving a notice thereof from the Treasurer, to give information thereof to the District Attorney in whose district said officer may have been appointed, who shall bring an action against such Collector and his sureties upon his bond, before any court of competent jurisdiction; and upon recovery had thereon, the said District Attorney shall receive for his services ten per cent. upon the amount collected, the balance to be paid by him into the treasury in the manner provided by law for like payments.

Sec. 14. It shall be the duty of the Governor, so soon as he shall have been officially informed of the passage of a law by the United States Congress, assuming the control of the mines of the State, to issue his proclamation, requiring all Collectors of licenses to foreign miners to stop the issuing of licenses.

Sec. 15. It shall be the duty of the Governor of State, immediately after the passage of this Act, to have two thousand copies each, in English and Spanish, printed and sent to the mining districts for circulation among the miners, and also to have the same published for thirty days in the Pacific News at san Francisco, and in some newspaper at Sacramento City and at Stockton.

AN ACT

TO PREVENT THE IMPORTATION OF CONVICTS INTO THIS STATE.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

Sec. 1. No captain or master of any vessel, or any other person or persons shall knowingly or willingly import, bring or send, or cause or procure to be imported, brought or sent, or be aiding or assisting therein, into this State, by land or water, any felon, convict or person under sentence of death or transportation, or any other legal disability incurred by a criminal prosecution, except for treason, or who shall be delivered or sent to him from any prison or place of confinement in any place without this State.

Sec. 2. Every person who shall offend against any of the provisions of the preceding section, shall be deemed guilty of a misdemeanor, and on conviction thereof, shall be punished by imprisonment in the county jail, for a term not less than three months, and shall forfeit and pay moreover the sum of one thousand dollars for each of such convicts so imported, brought or sent into this State; one half of which penalty shall go to him or her who shall sue or prosecute for the same, and the other half to the county in which such prosecution shall be had.

Sec. 3. This act to take effect and be in force from and after thirty days' publication of the same in the "Pacific News."

EMPIRE CITY.

FOR Sonorian Camp, Wood's Diggings, Sullivan's, Hawkins's and Don Pedro's Bars, head waters of Tuolumne, Mercedes, and Mariposa Rivers; also, to head waters of san Joaquin and King's River FREIGHT OR PASSAGE TO EMPIRE CITY, TUOLUMNE. DURFEE & TOWNSEND have established a daily line of sailing vessels from san Francisco to the above city, situated on the south-easterly bank of the Tuolumne river, thirty-five miles above its mouth, and are prepared to carry freight or passengers.

This route is the only one which can be really said to extend, by water, to the very gold field. The city stands at the head of navigation on the Tuolumne river, where the low hills of the Sierra Nevada meet the plains of the san Joaquin, and is not only accessable by sufficient water at all seasons of the year, but the roads to the mines, from that point, are good in wet or dry weather. Goods shipped to Empire City, Tuolumne, save from 25 to 60 miles of land carriage over any other depot for that gold region, avoiding soft roads, expensive ferriage, and personal discomfort.

Persons shipping goods, or taking passage, may rely upon promptness in dispatch, speed in transit, and great saving in time and expense.

For freight or passage, apply to messrs. Turner, Fish & co., foot of Jackson street, san Francisco, or to the subscribers, Empire City, Tuolumne. April 29, 1850.

EMPIRE AND CRESCENT CITIES.

THE survey of this town being completed at the head of navigation on the Tuolumne river, and numerous lots sold and houses erected, designed originally to bear the name of Crescent city, the subscribers, owners of lots in said town, learning that a plot of ground on the northwesterly bank of said river, two miles below, surveyed and laid out last year, still insists upon its rights and advantages as a place for a city, have concluded to leave to the town plot alluded to the beautiful name of Cresent city, and adopt one quite as appropriate, if not so beautiful.—Henceforth, therefore, we claim the name of Empire city. The map will be deposited in the proper offices, and the change in name noted.

Empire city stands on the southeasterly bank of the Tuolumne river, and is the only point accessible by water at all seasons, immediately contiguous to the gold fields of Tuolumne, Merced, Mariposa and San Joaquin rivers. It is at the head of navigation on the Tuolumne river, 35 miles from its mouth. Those persons wishing a settlement in the country are desired to visit it, and examine its advantages over any of its competitors. Signed—Philo Durfee, Edwin D. Townsend, Wm. J. Marcy, W. H. Willson, Joseph E. Miller, Wm. M Rowlett. Thomas J. L. Smiley, David Turner, Edward S. Townsend, Edward Conway, Henry E Perrine, J. B. Lattimer.

TO THE PUBLIC.

SEMI-WEEKLY PAPER AT MARYSVILLE.

THE UNDERSIGNED is about to establish a semi-weekly newspaper at the town of Marysville, under the title of the MARYSVILLE HERALD. In politics its position will be independent. Bound to none, it will lend what influence it may have to all such measures as the necessities of the State may demand, without regard to their origin. It will aim to be a medium of correct information from the Northern mines, in the very heart of which it is to be published; while, as an instrument by which men of business in San Francisco and Sacramento city, can make themselves known to their REAL customers, it will have no superior in California, for its circulation will be confined almost wholly to the miners, upon whom the merchants and dealers must to a large extent rely for their success. For the miners, who are unabe to obtain papers from the Atlantic States, full abstracts of all important sayings and doings at home will be given, together with whatever else occasion and fitness may demand. It is proposed to issue the first number on or about the first of June.
